

CIRCULAR

for the parents interested for new admission from KG II to Class IX,

Greetings to you from Greenherald International School administration.

Due to current Corona virus pandemics, since we can't conduct our usual admission procedures of face to face viva and placement test for a proper assessment like usual time, we the school management have decided not to consider any new admissions for those above mentioned classes for the next academic session 2020-2021.

Furthermore we believe that, separating the children from their current peer groups to a complete unknown environment might stimulate further their mental stress and challenge, when our children are already experiencing an unusual stressful times due to current pandemic situation.

We appreciate your trust in our education system.

Nevertheless, when things become normal we will once again welcome you to come to us with your dear children.

Blessings for you and for your families. Keep up your courage and faith in the SUPREME power of the Almighty.

With kindest regards,

Principal
